

A complete range of configurable and connected solar street lights up to 24,000 lumens.

GreenVision Xceed Gen 4.0 Solar

A comprehensive range of solar street lights starting from 5,000 lumens to 24,000 lumens, with 170 lm/w efficacy, and the option of hybrid versions. Suitable for major roads, motorways and parking areas. Configurable dimming profile and load wattage.

Benefits

- Brings light to areas without access to electric grid
- Saves energy
- Preserves landscape as no trenching for cabling required
- Smart-city-ready for sustainable cities
- Environment friendly
- High efficacy reduces cost per light point by reducing battery and panel size
- Sturdy construction for long life

Features

- High luminous efficacy of up to 170 lm/Watt.
- Compatible with multiple battery types (LiFePO4, LMLA GEL)
- Available in both off-grid and hybrid versions
- Configurable dimming profile and load wattage
- Pressure die-cast aluminium housing for sturdiness and excellent thermal management

GreenVision Xceed Gen 4.0 Solar

Application

- Highways
- Street
- Road
- Parking
